Subject Index for Volume 26

A

ABO blood group system, 367
Acquired immunity, 79
Acute illness, in elderly, atypical presentation of, 137
Aging. *See also* Elderly
  physiologic changes of, 137
Alzheimer's disease, terminal stages of, parenteral hydration and nutrition in, 144
Analgesia
  in elderly, 161
  for peripherally inserted central venous catheter placement, in pediatric patients, 103
Antigens, blood group, 367
Arthritis
  psoriatic, treatment of, 319
  rheumatoid, treatment of, 319, 380
Authors, nurse, writing tips for, 110

B

Behavioral pain management
  for elderly, 153
  for peripherally inserted central venous catheter placement, in pediatric patients, 103
Blood cells, 79
Blood collection
  from peripherally inserted central venous catheters, 374
  from venous access devices, 285, 374
Blood cultures, for central venous catheter-related sepsis, 23
Blood group antigens, 367
Blood substitutes, 23
Blood transfusions. *See* Transfusions
Bone marrow, functions of, 79
Breast cancer, chemotherapy-related second malignancy in, 353

C

Cancer patients
  chemotherapy for. *See* Chemotherapy
  secondary malignancies in, 353
Catheter(s)
  blood collection from, 285, 374
  central venous. *See* Central venous catheters
  declotting of, low dose urokinase for, 245
  peripheral venous, maintaining patency of, 388
Catheter cultures, in central venous catheter-related sepsis, 23
Catheter occlusion
  with implanted ports, 97
  low dose urokinase for, 245
  prevention of, 245, 388
Catheter pinch-off syndrome, with implanted ports, 97
Catheter-related infections
  reduction of, impact of dedicated infusion therapy team on, 362
  sepsis in, detection of, 23
  skin flora and, 44
Catheter thrombosis, from implanted ports, 97
Cell-mediated immunity, 79
Cells, of immune system, 79
Central venous catheters. *See also* Catheter(s)
  implanted. *See* Implantable ports
  infection of, 23
  peripherally inserted
    blood collection from, 374
    in pediatric patients, psychocultural aspects of, 103
    positioning of with mediastinal mass, 92
Chemotherapy
  implantable ports for
    complications of, 97
    frequency of needle removal for, 239
  secondary malignancies caused by, 353
Children
  chemotherapy-related second malignancy in, 353
  peripherally inserted central venous catheter placement in, psychocultural aspects of, 103
Chronic inflammatory disease, treatment of, 319
Cimetidine infusion, theophylline clearance after, in critically ill patients, 234
Collaborative approach, for quality improvement, 34
Colloidal solutions, 296
Continuing education. *See* CRNI Recertification Examination
Coping techniques, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Critically ill patients, theophylline clearance after cimetidine infusion in, 234
CRNI Certification Examination, review questions for, 11, 70, 127, 225, 273, 349
CRNI Recertification Examination, review questions for, 178, 327
Crohn's disease, treatment of, 319
Crystalloid solutions, 296
Cultural aspects, of peripherally inserted central venous catheter placement, in pediatric patients, 103
Culturally competent care, 252
Cultures, for central venous catheter-related sepsis, 23

D

Declotting, catheter, low dose urokinase for, 245
Dedicated infusion therapy team. *See also* Team approach
  reduction of catheter-related infections and, 362
Dementia, terminal stages of, parenteral hydration and nutrition in, 144
Discard method, for blood collection, 285
Distraction, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Drug safety, in home infusion care, 311

Drug therapy, in elderly, 166
Dying patients, parenteral hydration and nutrition for, 144

E

Editorials, 7, 67, 123, 125, 195, 267, 342
Education, staff, in culturally competent care, 252
Elderly
  assessment and management protocols for, 153
  at-risk, 137
  atypical presentation of acute illness in, 137
  frail, 137
  nutritional screening for, 170
  pain management in, 161
  parental hydration and nutrition for, 144
  polypharmacy and, 166
EMLA cream, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Emotional aspects, of peripherally inserted central venous catheter placement, in pediatric patients, 103
End-of-life care, parenteral hydration and nutrition in, 144
Erratum, 340
Erythrocytes, 79
Etanercept, for immune-mediated inflammatory disorders, 319
Ethical aspects, of parenteral hydration and nutrition in terminal care, 144
Ethnographic study, of home infusion care, 227

F

Flora, skin, infection and, 44
Fluid management, in terminal care, 144
Fluid resuscitation, solutions for, 296
Flushing, of peripheral venous catheters, 388
Frail elderly, 137. *See also* Elderly

G

General anesthesia, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Geriatric assessment, 153. *See also* Elderly
Granulocytes, 79
Guided imagery, for peripherally inserted central venous catheter placement, in pediatric patients, 103

H

Hematopoietic substitutes, 23
Heparinoid cream, versus notoginseny cream, for phlebitis, 49
Heparins, low molecular weight, in special populations, 304
Hodgkin's disease, chemotherapy-related second malignancy in, 353
Home infusion care
  ethnographic study of, 227
  medication safety in, 311
Humoral immunity, 79
Hydration
  resuscitative, solutions for, 296
  in terminal care, 144
Hypertonic solutions, 296
Hypodermoclysis, in terminal illness, 144
Hypotonic solutions, 296

I

Illness, acute, atypical presentation of in elderly, 137
Imagery, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Immune-mediated inflammatory disorders, treatment of, 319
Immune system, anatomy and physiology of, 79
Implantable ports
  complications of, 97
  frequency of needle removal for, 239
Infections
  catheter-related. *See* Catheter-related infections
  port pocket, 97
Inflammatory disorders, immune-mediated, treatment of, 319
Infliximab
  administration of, 380
  for immune-mediated inflammatory disorders, 319, 380
Infusional chemotherapy. *See* Chemotherapy
Infusion assessment, 79
Infusion Nurses Society (INS)
  chief executive officer's report of, 215
  financial report of, 212
  presidential address of, 223
  state of the society report of, 209
Infusion therapy
  for cancer patients. *See* Chemotherapy
  in non-hospital setting
    ethnographic study of, 227
    medication safety in, 311
Innate immunity, 79
Isotonic solutions, 296

J

Journal articles, writing tips for, 110

K

Kidney disease, low molecular weight heparins in, 304

L

Legal issues, in parenteral hydration and nutrition in terminal care, 144
Leukocytosis, 79
Local anesthetics, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Low molecular weight heparins, in special populations, 304
Lymphocytes, 79
Lymphoma, chemotherapy-related second malignancy in, 353

M

Macrophages, 79
Malnutrition, in elderly, 170
Massage, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Mediastinal mass, positioning of peripherally inserted central venous catheter and, 92
Medication safety, in home infusion care, 311
Megakaryocytes, 79
Mixing method, for blood sampling from venous access devices, 285
Modeling, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Monocytes, 79
Mucous membranes, protective functions of, 79
Multidisciplinary teams, 34
Music, for peripherally inserted central venous catheter placement, in pediatric patients, 103

N

Needles, port, frequency of removal of, 239
Neutropenia, 79
New products and services, 55, 114, 183, 257, 331, 393
Non-Hodgkin's lymphoma, chemotherapy-related second malignancy in, 353
Notoginseny cream, for phlebitis, 49
Numby cream, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Nurse authors, writing tips for, 110
Nutritional screening, for elderly, 170
Nutritional support, in terminal care, 144

O

Obese patients, low molecular weight heparins for, 304
Ovarian cancer, chemotherapy-related second malignancy in, 353

P

Pain management
  in elderly, 161
  for peripherally inserted central venous catheter placement, in pediatric patients, 103
Pancytopenia, 79
Parenteral hydration and nutrition, in terminal care, 144
Patient assessment, 79
Pediatric patients
  chemotherapy-related second malignancy in, 353

peripherally inserted central venous catheter placement in, psychocultural aspects of, 103
Peripherally inserted central venous catheters
blood collection from, 374
infection of, 23
in pediatric patients, psychocultural aspects of, 103
positioning of with mediastinal mass, 92
Peripheral venous catheters, maintaining patency of, 388
Pharmacokinetics, in elderly, 166
Phlebitis, notoginseng cream for, 49
Polypharmacy, elderly and, 166
Port complications, 97
Port needles, frequency of removal of, 239
Port pocket infection, 97
Pregnancy, low molecular weight heparins in, 304
Psoriasis, treatment of, 319
Psychologic aspects, of peripherally inserted central venous catheter placement, in pediatric patients, 103
Publication, writing for, 110
Push-pull method, for blood sampling from venous access devices, 285

Q

Quality improvement, collaborative approach in, 34

R

Red blood cells, 79
Regional enteritis, treatment of, 319
Reinfusion method, for blood collection, 285
Relaxation techniques, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Renal dysfunction, low molecular weight heparins in, 304
Rh blood group system, 367
Rheumatoid arthritis
etanercept for, 319
infliximab for, 319, 380

S

Safety, in home infusion care, 311
Screening, nutritional, for elderly, 170
Sedation, for peripherally inserted central venous catheter placement, in pediatric patients, 103
Sepsis. *See also* Catheter-related infections
central venous catheter-related, clinical detection of, 23
Skin, protective functions of, 79
Skin flora, infection and, 44
Solutions
for fluid resuscitation, 296
flushing, 388
Staff education, in culturally competent care, 252
Stem cells, 79

T

Team approach
for quality improvement, 34
reduction of catheter-related infections and, 362
Terminal care, parenteral hydration and nutrition in, 144
Testicular cancer, chemotherapy-related second malignancy in, 353
Theophylline clearance, after cimetidine infusion, in critically ill patients, 234
Thrombosis, catheter, from implanted ports, 97
Training, staff, in culturally competent care, 252
Transfusions
blood group antigens and, 367
blood substitutes for, 29
history of, 29
Tube feeding, in terminal illness, 144
Tumor(s)
chemotherapy for. *See* Chemotherapy
secondary, chemotherapy-induced, 353
Tumor necrosis factor-α, for immune-mediated inflammatory disorders, 319
Twiddler's syndrome, 97

U

Undernutrition, in elderly, 170
Urokinase, low dose, for catheter declotting, 245

V

Vancomycin, infusion techniques for, 278
Vascular access devices. *See also* Catheter(s)
blood collection from, 285
implantable
complications of, 97
frequency of needle removal for, 239
types of, 79, 374
Vascular access team
development of, in acute care setting, 86
in quality improvement, 34
Venipuncture, in pediatric patients, psychocultural aspects of, 103

W

Writing for publication, 110
